## MOVING IMAGE FESTIVAL

EQUATIONS wishes to explore the commonalities in contemporary artists moving image, as well as the issues that arise in its screening. Through an open submission call out we will curate a diverse programme, pairing film works together to create a dialogue. We will utilise the UbuWeb archive to further enhance the selection on offer and strengthen the debate.

TOOL BANK is a collective of artists that has  
been working together since 2009, where they met  
studying at Winchester School of Art.

We hope to build a network of like-minded  
creatives, working together to realise aspirations  
and produce work in spirit and with purpose.
